Dear Mr. Chairman and Commissioners:

Arizona Public Service has not made a case why small business owners, such as me, should be forced to pay them more each month for basic service. Therefore, I urge you to vote no on any rate or other increases they seek.

In a time of automation it is reasonable to assume that the cost of customer service etc would be going down and not up. While I appreciate the need for reliable electricity service, I would think our bills should reflect what we use and not have across the board increases that do not appear to be warranted.

I am counting on you to vote no to increasing fixed costs which we cannot reduce even when we reduce our consumption.
